

Maine Volunteer Lake Monitoring Program-Mission Statement

https://www.youtube.com/watch?v=h_0yzPnL39g#action=share

The Maine Volunteer Lake Monitoring Program (VLMP) is the oldest, and one of the largest statewide citizen lake monitoring programs in the nation. The mission of the Maine Volunteer Lake Monitoring Program is to help protect Maine lakes through widespread citizen participation in the gathering and dissemination of credible scientific information pertaining to lake health. The VLMP trains, certifies and provides technical support to hundreds of volunteers who monitor wide range of indicators of water quality, assess watershed health and function, and screen lakes for invasive aquatic plants and animals. In addition to being the primary source of lake data in the state of Maine, VLMP volunteers benefit their local lakes by playing key stewardship and leadership roles in their communities. Please visit the VLMP website to learn more about this exceptional organization and to find out how you can get involved.
